Larger Backdrops can be accommodated using other points.

Rigging / Ladders / Barriers etc

Komedia Bath does not have an in house crowd barrier but we do have good links with local hire companies stocking mojo type barrier. Which are installed and insured to current legislative requirements. Any outside hire / install of barrier of any type will require risk assessment, insurance documents and sign off on day of install. Show will not proceed with a barrier that does not comply.

POWER:

1x 125A 3phase into our Avolites Art Rack and have 32A 3 Phase available out of the utility bay. We use this for motor control but are happy to disconnect and use for guest power.

2 x 32A single phase power for audio use on stage 1 is used for our PA and the other is guest line.

10 x Double 13A UK Sockets
1 x 32A Single phase at FOH
8 x Double 13A UK Sockets at FOH

NOISE LEVELS / CURFEW:

Komedia requires all guest engineers, artists and crew to keep to FOH limit of 102 dBa (as measured by the house technician and with the house decibel meter). In general there is a 1700hrs curfew (at the earliest) on the commencement of high sound levels. The after show curfew is dependant on the event, please ask for more information.

ADDITIONAL EQUIPMENT:

We can arrange and hire in a large array of extra equipment as and when required. Payment for this needs to be agreed and arranged with promoter / artist / venue prior to shows and confirmation of equipment hire.
